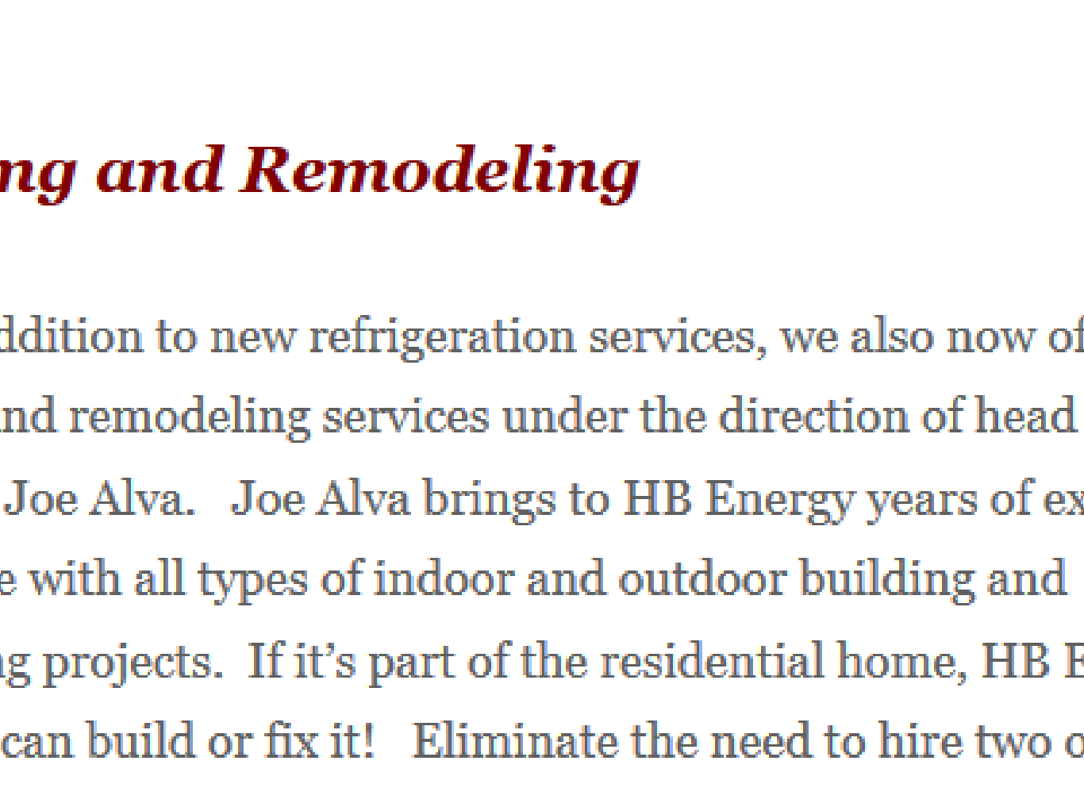
Refrigeration Services

We are pleased to announce the recent merger between The Cool Connection and HB Energy Solutions. Owner Scott Washburn of The Cool Connection has joined the HB Team and brings in-depth knowledge and expertise of A/C and commercial refrigeration services. Among many other services, Scott specializes in sales, installation, repair, and maintenance of commercial walk-in coolers, ice machines, and refrigerators. He also has extensive experience with commercial appliance repair.

Our long-standing, excellent relationship with Efficiency Vermont enables us to provide our customers with assistance when upgrading to more energy efficient equipment. HB Energy is excited to add refrigeration to our ever-growing list of services.

If you depend on reliable refrigeration systems and equipment to keep your business running, you can count on HB Energy Solutions to deliver peace of mind.



Building and Remodeling

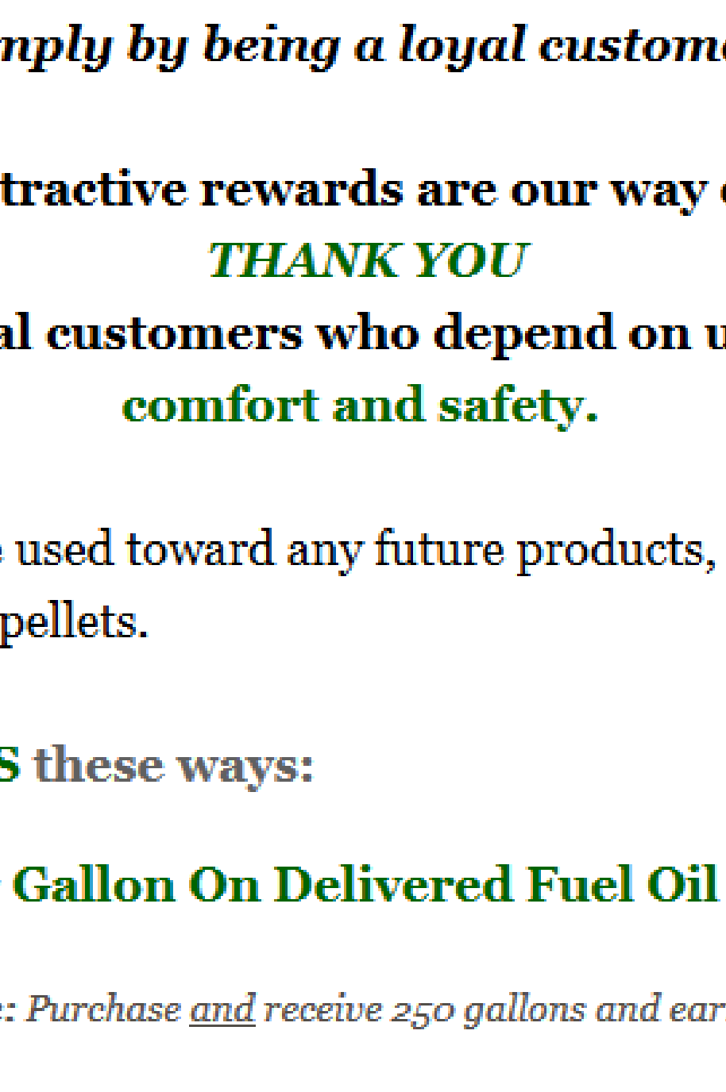
In addition to new refrigeration services, we also now offer building and remodeling services under the direction of head carpenter Joe Alva. Joe Alva brings to HB Energy years of extensive experience with all types of indoor and outdoor building and remodeling projects. If it's part of the residential home, HB Energy Solutions can build or fix it! Eliminate the need to hire two or three companies for one job—HB Energy does it all!

We can help with projects in every room of your home. Have you been putting off a bathroom remodel because you don't want the headache of a renovation? We understand! Let HB Energy Solutions manage all aspects of your renovation. Our plumbers can install your plumbing fixtures; our electricians can replace your outdated light fixtures with new ones; our carpenters can hang new drywall; our tradesmen can lay beautiful floor and wall tiles.

When you have one company handling all the parts of your project, everyone is working together with your vision in mind. Your project is completed more quickly and economically. Not only will the project be less expensive, but you will earn 5% back in customer rewards! That may get you thinking about that kitchen renovation...

Let HB Energy Solutions help you live in your dream home.

Rewards Program



Don't forget--you have been earning HB Bucks for months, simply by being a loyal customer!

These attractive rewards are our way of saying
THANK YOU
to our loyal customers who depend on us for their
comfort and safety.

HB Bucks can be used toward any future products, services, fuel oil, propane, or wood pellets.

Earn **HB BUCKS** these ways:

- **2 Cents Per Gallon On Delivered Fuel Oil or Propane**

For Example: Purchase and receive 250 gallons and earn ***5 HB Bucks***

- **2 Dollars Per Ton On Purchased Wood Pellets**
- **5% On Any Products or Services**

For Example: Purchase a new heating system for $5,000 & earn ***250 HB Bucks***

Remember!

HB Bucks are transferrable to another individual or organization. For instance, you could use your HB Bucks to help a family member pay for fuel oil, or a friend pay for a pellet stove installation. You can also show your support for a local charity or religious organization by donating some, or all, of your HB Bucks.

To check your HB Bucks balance or to redeem, please call our office at 802-885-2300.

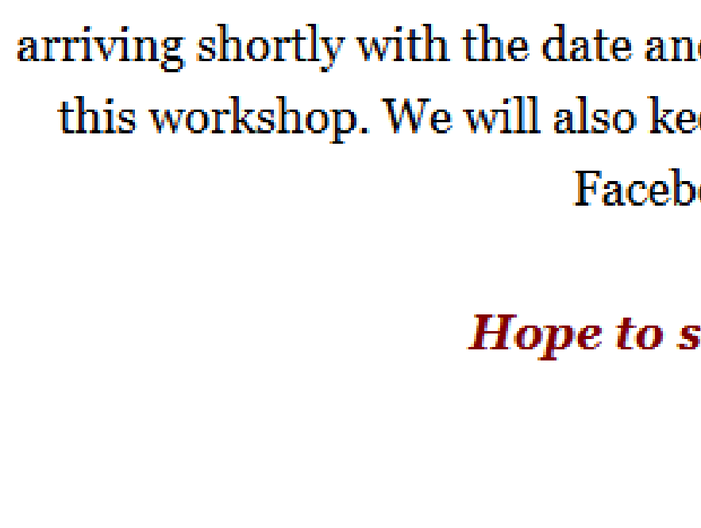
Educational Workshops



Educational Workshop Series

We are excited to announce the start of our

Educational Workshop Series

The first workshop will cover ductless mini split heat pumps, an economical and efficient alternative to central heat and air. These systems do not require the use of ductwork and are rated as some of the most efficient HVAC systems available. Another e-mail will be arriving shortly with the date and time, as well as a full description of this workshop. We will also keep you updated on our website and Facebook page.

Hope to see you there!

HERRICK'S COVE WILDLIFE FESTIVAL

We had a blast at this year's Herrick's Cove Wildlife Festival. As usual, our Solar Mobile was on-hand to provide energy to nearby exhibits. Festival-goers had the opportunity to plant seeds, meet and interact with animals, and listen to wildlife experts.

We are already looking forward to next year's festival!

The complete environmentally-friendly portable energy system- THE SOLAR MOBILE!

Owner Tom Hernon and his grandson Owen meet a friendly tortoise!
