

## HB ENERGY SOLUTIONS

### RESIDENTIAL PLUMBING SERVICE CONTRACT

A residential plumbing service contract with HB Energy Solutions offers you a number of benefits above and beyond the normal high level of service offered to our regular plumbing customers:

#### **PRIORITY SERVICE**

Customers with a residential plumbing service contract will receive priority service.

#### **SAVINGS**

10% savings discount on plumbing services (material and labor) for the length of your contract.

Lower utility maintenance costs through preventative measures.

A yearly inspection and tune up for your home's plumbing system can reduce the number of repair calls for emergencies and maintenance. The annual plumbing inspection will consist of the following:

1. Inspect all visible drainage and water piping for leaks and corrosion.
2. Inspect faucets for leaks and proper operation.
3. Check all aerators and showerheads for leakage and debris.
4. Inspect tub and shower drains.
5. Inspect tub and shower area for leakage.
6. Inspect toilets for proper attachment and operation. Dye test toilets for leakage.
7. Inspect garbage disposer and kitchen sink drainage.
8. Inspect sink traps and drains for leakage and corrosion.
9. Inspect condition of washing machine hoses.
10. Check water system pressure to verify it is within operational limits.
11. Check the operation of the pump and pressure tank.
12. Check all outside faucets.
13. Test sink and toilet shut off valves.
14. Identify, test and tag the main water shut off. \*\*Frequently old main house shut off valves break when opened or closed and must be replaced. It is better to know if a shut off valve is defective before it is needed in a crisis moment.
- 15 Provide a written report and estimates if any repairs are recommended.

**COST OF YEARLY PLUMBING INSPECTION & TUNE UP:**

**\$179.00**

132 Bridge Street • P.O. Box 945 • Springfield, Vermont 05156 • 802-885-2300 • Fax: 802-885-4040
